GLASS DOORS

API's Swinging Glass Doors are an ideal way to add style and elegance to any interior or exterior location. Available in a wide array of different patterns, our Swinging Glass Doors provide you with virtually unlimited design possibilities.

API's Sliding Glass Doors are designed for entrances that must be kept open during business hours, while conserving valuable floor space. To suit any environment, both bi-parting and stacking Sliding Glass Doors are available.

API's Glass Door Hardware is offered in many exciting anodized and powder coat colors and finishes, in addition to stainless steel and brass, providing you with unique opportunities to incorporate your color palette and design throughout your entire storefront.

Use door hardware in colors that match adjoining sidelite rails to create continuity throughout your design. Or, apply a variety of color combinations to your hardware to liven up any entryway.
